## PATIENT DETAILS LASIK SURGERY

Your Custom Lasik surgery is scheduled for \_\_\_\_\_ at  
McCannel Eye Surgery Center at \_\_\_\_\_ AM/PM. **Please arrive ½ hour prior  
to the time of surgery.**

An appointment for the first post-operative eye evaluation has been scheduled for  
\_\_\_\_\_ at McCannel Eye Clinic at \_\_\_\_\_ AM/PM.

### Important reminders for you:

The Custom Lasik fee is \$4000 for both eyes (less the \$100 consultation fee) and will be charged on the day of surgery. We accept Visa or MasterCard. If you do not want to use your credit card for payment, we can accept personal check payment up to one week prior to the surgery date. Please call me if you wish to pay by check.

Included in the \$4000 Lasik fee is the Lasik consult, the surgery performed by the doctor, the facility fee, and one year worth of Lasik related follow-up appointments with your doctor. If you need an enhancement, there is not a doctor fee, but there will be a facility fee of \$350 per eye for McCannel Eye Surgery. There are 6 months worth of Lasik related follow-up appointments included in the enhancement fee. If you are seen within your post-op year for an evaluation **not** related to your Lasik procedure, **or** are seen after your post-op year has ended, you will be asked to supply us with your insurance information so that these visits can be billed properly. If you have no insurance, these visits will be your responsibility, and will be due at the time of service.

**A prescription for eye drops that you will be using after surgery will be sent to your pharmacy the week prior to surgery for your convenience. Please make sure to pick up your prescription prior to surgery and bring it with you to surgery.**

Do not hesitate to call our office if you have any questions about your upcoming surgery.
